Retreeva Metal Detectable Highlighters

Technical Specifications

Maximum detectability:	Metal and x-ray detectable pens moulded from FDA food contact approved materials in the universally accepted colour for visual detection – blue.
Ergonomic:	All Retreeva Global markers have an ergonomic 15mm diameter barrel for greater writing comfort and ease without compromising on ink quantity.
Low odour, quick drying ink.	
Xylene and tourene free.	
Chisel writing tip.	
Child-safe cap.
