

Retreeva Metal Detectable Markers

- Metal detectable
- Durable moulded ergonomic body
- Permanent or Whiteboard markers available

Retreeva Metal Detectable Markers

Technical Specifications

Maximum detectability:	Metal and x-ray detectable pens moulded from FDA food contact approved materials in the universally accepted colour for visual detection – blue.
Ergonomic:	All Retreeva Global markers have an ergonomic 15mm diameter barrel for greater writing comfort and ease without compromising on ink quantity.
Permanent ink:	Does not wipe off.
Dry wipe ink:	For use on whiteboards and wipe clean surfaces.
Low odour, quick drying ink.	
Xylene and tourene free.	
Bullet writing tip.	
Child-safe cap.
